Mark My Words

Sha Tin / Sunday, November 22, 2026 / 11 turf races

The card at a glance

Handicapped from the Hong Kong race form, recent running lines and barrier trials. Numbers below are editorial selections in preference order. Post times are Pacific.

R1	Sat 8:30 PM	**#2 Super Dragon** 2 / 10 / 4 / 3
R2	Sat 9:00 PM	**#12 Supreme Voyager** 12 / 3 / 10 / 9
R3	Sat 9:30 PM	**#1 Mighty Profit** 1 / 3 / 13 / 8
R4	Sat 10:15 PM	**#4 Shannon Glow** 4 / 2 / 6 / 1
R5	Sat 11:05 PM	**#2 Pi Legend** 2 / 1 / 9 / 4
R6	Sat 11:35 PM	**#5 Pocketing** 5 / 7 / 4 / 1
R7	Sun 12:05 AM	**#1 Ka Ying Rising** 1 / 2 / 5 / 4
R8	Sun 12:40 AM	**#1 My Wish** 1 / 7 / 3 / 6
R9	Sun 1:15 AM	**#9 Massive Sovereign** 9 / 8 / 2 / 1
R10	Sun 1:50 AM	**#3 Nyx Gluck** 3 / 8 / 1 / 12
R11	Sun 2:25 AM	**#7 Aerovolanic** 7 / 9 / 1 / 8

Strongest opinion R7 #1 Ka Ying Rising. His last two races were a dominant Sha Tin win and a neck defeat in a Randwick Group 1. He won his November 13 trial on returning home.

Other race to circle R10 #3 Nyx Gluck. A short head cost him a third straight win. He is back over the same 1,400m with Purton.

Changes R2 #8 Curling Sweet replaces S And S Glory. R9 #3 Docklands scratched.

Draw figures use the B+2 turf rail at the race distance, from the 2024/25 season to this card.

Form reviewed Nov 21, 2026 at 8:23 PM Pacific. Both editions use the same field. Race IQ, Animator rankings and morning-line odds are unavailable for this card.

Race 1 / 1200m turf

Class 5 / Sat 8:30 PM Pacific / 12:30 Hong Kong

BOCHK Cross-Border Services Handicap

Mark's order 2 / 10 / 4 / 3

Super Dragon gets a class drop and a much kinder draw. So My Folks gets back on the surface that produced his best recent run. Lucky Twenty can go from gate 2. Top To Sky led at both early calls last time and may have to work to cross from 13. That gives Super Dragon a target.

Mark's key stat Gate 13 has produced 0 winners and 5 top-three finishes from 32 starts at this 1200m B+2 setup. #3 Top To Sky needs a clean break to get across.

Head-to-head form October 11, 2026 / Super Dragon finished only three-quarters of a length ahead of Best Farm despite finishing three places ahead. Super Dragon moves from gate 12 to 4. Best Farm gets the rail and a three-pound swing in his favor.

1	**Lucky Twenty** Showed speed before finishing last at Happy Valley. The drop helps, but he was beaten more than seven lengths in each of his last two.
2	**Super Dragon** Badel stays after a last-to-fourth run over this course and distance against Class 4 horses. Draws 4 after starting from 12 that day. On October 11 he ran the fastest final 400m of all 12 in 22.58 seconds. The winner finished in 22.75.
3	**Top To Sky** Led before fading to fifth in Class 4 at Happy Valley. The drop gives him a chance to carry that speed farther if he clears from 13.
4	**Lightning Ace** Missed by a neck on the all-weather. Has a turf sprint within 2¼ lengths in Class 4, but has to work out a trip from 14.
5	**Best Farm** Gets the rail. His seventh over this trip in Class 4 was closer than his ninth at Happy Valley last out.
6	**Free Pony** Purton takes over, but the first try back in Class 5 ended in an eight-length defeat. I need more than the rider change.
7	**Turbo Jefferies** Reached third during the run before finishing 12th on the all-weather. His previous turf run ended in an even bigger defeat.
8	**Bullish Pride** Two straight fifths on the all-weather. His fourth in a Sha Tin turf sprint against better makes him interesting underneath.
9	**Fortune Supernova** Cuts back from 1,650m after a heavy defeat. The older turf sprints give him a chance to improve, but others have stronger recent lines.
10	**So My Folks** Three all-weather runs hide his September second at this exact trip. McDonald can let the outside speed go and ride for one run.
11	**Emerging Star** Finished last over this course and distance in September. The break and equipment change leave a lot to take on trust.
12	**Viva Chaleur** Two sevenths since returning. Drew 12 on the all-weather last time and gets gate 5 back on grass.
13	**Call To Command** Returns after 137 days. His latest Sha Tin turf sprint was a 17½-length defeat and his November trial was sixth of six.
14	**Dash** Passed six horses from the first call to the finish at Happy Valley last time. Needs another lively pace to get involved late.

Standby only S1 Majestic Delight · S2 Alabama Song

Race 2 / 1000m turf

Class 4 / Sat 9:00 PM Pacific / 13:00 Hong Kong

BOCHK SME In One Handicap

Mark's order 12 / 3 / 10 / 9

Supreme Voyager has already won this straight 1,000m. Six runners face their first local race, and two have trial form worth a second look. Winning Money and Zouper Fellow have both led recently. Cala Dei Mori has speed too, giving Supreme Voyager and Flowing Riches runners to chase.

Mark's key stat #3 Flowing Riches came home in 21.55 at this 1000m trip on September 27, second fastest of 14. He can make his run inside if a gap opens.

Head-to-head form September 27, 2026 / Flowing Riches won by a neck from Zouper Fellow, with Supreme Voyager only three-quarters of a length off the winner. Supreme Voyager then won their October 19 rematch with Zouper Fellow. The September finish alone understates his chances.

1	**Cala Dei Mori** Drops from Class 3 and shortens the turnaround to eight days. Has shown early speed, but his last two finishes were 14th and 12th.
2	**Winning Money** Lost by a short head after leading at Happy Valley over 1,200m. The cutback suits his speed, though he has less convincing form over this straight course.
3	**Flowing Riches** Won at this course and distance from off the pace in September. Returns to that trip after two 1,200m defeats and won his November 13 trial.
4	**Master Champion** Fourth at Happy Valley two back before fading to 11th there. His recent straight-course run came against stronger opposition.
5	**Aloha Dragon** Starts his local career from 14. Fifth in his last two all-weather trials leaves others with stronger preparation.
6	**Circuit Lucky Star** Seventh of nine in his November 10 trial, behind two of tonight's newcomers. I would like to see a local race.
7	**Reborn Hero** Several turf trials to learn from, but eighth of nine in his latest 1,200m trial leaves plenty to find.
8	**Curling Sweet** Promoted from standby. His latest turf trial ended 10th of 10, so he needs to improve sharply on race day.
9	**Sisukas** Ferraris rode him to a turf trial win and then two trial seconds. Finished in front of Super Boom on November 10. My preferred newcomer on the trial evidence.
10	**Super Boom** Purton rode him to a 1,000m Sha Tin turf trial win over 10 opponents. Fourth in a later dirt trial. The October grass work is the stronger reason to use him.
11	**Zouper Fellow** Led and lost by a neck here in September, then faded to 11th in October. Can make the pace matter for the closers.
12	**Supreme Voyager** Came from ninth to win here in October after finishing third over the same trip in September. Gate 13 and Bentley again.
13	**Classic Triple** Closed for fourth at Happy Valley last time. His previous run over this straight 1,000m was a distant tenth.
14	**Goldentronicmighty** Ran fifth here from well back, beaten just a length by Supreme Voyager. The finish was better than that placing looks.

Race change · #8 Curling Sweet replaces S And S Glory.

Standby only S2 Parents' Love

Race 3 / 1200m turf

Class 4 / Sat 9:30 PM Pacific / 13:30 Hong Kong

BOC Life Handicap

Mark's order 1 / 3 / 13 / 8

Mighty Profit owns the local win. Packing Smart nearly won his debut at Happy Valley, while Noble Patch supplies the late run if the front end gets busy. Happy Brethren has led recently and Smiling Sky can press. That setup gives Mighty Profit time to settle from gate 3.

Mark's key stat #13 Noble Patch overcame contact at the break to close in 22.17, fastest of 14 over this 1200m trip on October 25.

Head-to-head form October 25, 2026 / Noble Patch finished three-quarters of a length ahead of Handsome Hero. He now moves from gate 7 to 13, while Handsome Hero goes from 4 to 5. Another late charge by Noble Patch may have to start from farther back.

1	**Mighty Profit** Won going away from the back half on his second start over this track and trip. Added a 1,200m turf trial win on November 6.
2	**Shanghai Warrior** McDonald and gate 2 appeal. The recent seventh at Happy Valley was a better effort than his Class 3 defeat here.
3	**Packing Smart** A short head away on debut at Happy Valley. Purton stays and he can sit close enough to get first run on the closers.
4	**Camelot Knight** Two trial seconds at 1,200m, including one on Conghua turf. Preferred first-time starter for extra coverage.
5	**Celestial Zous** Adds cheekpieces after finishing ninth at 1,000m. A third in a 1,200m all-weather trial gives a little encouragement.
6	**Fast Top Search** Third and fifth in 1,000m turf trials. Has to carry that speed another 200m on his local debut.
7	**Kachow** Has the rail but was fifth of seven in his latest all-weather trial. Watch how he breaks.
8	**Handsome Hero** Beaten two lengths both when third over 1,000m and when fifth over today's trip. Gate 5 gives him a chance at the top three.
9	**Harvest Moon** Draws 14 after fading to 11th at Happy Valley. Blinkers need to make a material difference.
10	**Voyage Captain** Only 1¾ lengths away here in October. The 7 lb rider allowance and a midfield draw give him an underneath chance.
11	**Sharp Planet** His early second came before a string of heavy defeats. Needs to regain that form from gate 11.
12	**Smiling Sky** Two recent turf sprints were closer than the fifth and seventh suggest. Cheekpieces go on after a trial second.
13	**Noble Patch** Finished strongly from last to run third over this course and distance. A repeat puts him in it if the pace holds up.
14	**Happy Brethren** Showed the way here last time before fading to ninth. Gate 4 gives him early options but he needs to finish.

Standby only S1 Prime Ace · S2 Brilliant Turn

Race 4 / 1400m turf

Class 4 / Sat 10:15 PM Pacific / 14:15 Hong Kong

BOCHK "Banking TrendyToo" Handicap

Mark's order 4 / 2 / 6 / 1

Shannon Glow and Lean General come out of the same 1,400m debut race. Mr Cool brings a win and a third over this trip for a useful comparison. Happy Special has led twice over 1,200m. Shannon Glow and Lean General both finished from behind on October 19 and want a target turning for home.

Mark's key stat #4 Shannon Glow finished in 23.02 and #6 Lean General in 23.47 in their October 19 meeting. Lean General had to wait at the 250m.

Head-to-head form October 19, 2026 / Shannon Glow beat Lean General by a length on debut. Lean General gets a six-pound swing in his favor, but Shannon Glow moves in from gate 12 to 4. The weights and the draw give the two rivals different reasons to improve.

1	**King Of Fighters** Drops into Class 4 after a closing fourth at Happy Valley. His last 1,400m here was less encouraging, so he is coverage.
2	**Mr Cool** Won over this course and distance and followed with a third here. Gate 11 can cost ground if he cannot find cover.
3	**Natural Numbers** The last two routes disguise a close sixth over today's trip in Class 3. Purton gets gate 1 for the drop.
4	**Shannon Glow** Won his only start from well back over this trip. Gate 4 offers a chance to save ground while the runner-up types give chase.
5	**Real Gentleman** Three straight 12ths. The outside draw adds another obstacle before he can show his older winning form.
6	**Lean General** Third on debut in Shannon Glow's race, beaten a length. The weight spread and scope to improve make the rematch interesting.
7	**Raging Warrior** A third and a second from two starts, both on dirt at 1,200m. Turf, 1,400m and gate 13 are three new questions.
8	**Glory Patch** His debut fifth here was better than the next run. Now adds distance and draws widest.
9	**Regency Dream** Two lengths away in his only race over this trip in March. The 245-day absence makes current fitness the question.
10	**Happy Special** Has shown speed over 1,200m and won a recent trial. The extra 200m is the concern after fading in his last sprint.
11	**Let's Have Fun** A sprint winner two back, then eighth at today's trip. Gate 3 helps him get cover.
12	**Trendy Rush** Beaten three lengths in the Shannon Glow race. Gate 2 and a trial second offer a route to minor money.
13	**Casa Buddy** Five local starts and five double-digit finishes. Would need a substantial turnaround.
14	**Good Luck Babe** Gets back to 1,400m with a light weight, but his most recent try over this trip was an eighth beaten over six lengths.

Race 5 / 1200m turf

Class 3 / Sat 11:05 PM Pacific / 15:05 Hong Kong

BOCHK Wealth Management Handicap

Mark's order 2 / 1 / 9 / 4

Pi Legend has race fitness. Crossborderpegasus has the strongest comeback case. Of six local newcomers, So You Imagine has done the most on grass in trials. Pakistan Legacy can take a prominent spot. Pi Legend can sit just behind from 4. Crossborderpegasus usually needs a target, and the newcomers make the early order uncertain.

Mark's key stat #1 Crossborderpegasus has 3 wins and 8 top-three finishes from 10 tries at this course and distance. That is the form the newcomers have to match.

Head-to-head form July 12, 2026 / Pi Legend beat Crossborderpegasus by a head while receiving six pounds. They meet at level weights now, and Crossborderpegasus moves from gate 12 to 3. That makes the runner-up interesting despite his layoff.

1	**Crossborderpegasus** Closed from 14th to miss by a head here in July. A November trial third is encouraging ahead of his first race in 133 days.
2	**Pi Legend** Second at this trip in October and twice a winner in his preceding three starts. Draws 4 with Teetan and has recent racing on his side.
3	**Pakistan Legacy** Ran within two lengths in Class 2 two back. His latest fifth behind Pi Legend was less convincing; usable for a minor placing.
4	**Galactic Voyage** Closed from 11th to fifth in his return to sprinting. Gate 2 saves ground if the gaps open.
5	**Leading Advantage** Local debut for Ng and Ho. His latest 1,200m all-weather trial fifth gives less encouragement than the better grass trials in this field. Raced as Grand Prairie. His two Australian turf wins came at 1,100m and 1,300m.
6	**Autumn King** Won a 1,200m Conghua turf trial in October, then finished fifth there in November. Needs to translate the earlier work from gate 11. He won three times on Australian turf, including at this 1,200m distance.
7	**Romantic Gladiator** McDonald rides on the cutback from 1,800m. Blinkers go on after two off-the-board Happy Valley routes.
8	**Silent Forge** Won an all-weather trial and finished second in another. Gate 14 and a first local race make him a price play. Raced as Mongolian Mission. His Australian win came at 1,100m. He finished in the top three five times in seven starts.
9	**So You Imagine** Won two of his last three turf trials and finished second in the other. My preferred local newcomer for Badel and Newnham. Raced as Silent Spy. He won his only start, a 1,400m turf maiden at Matamata in New Zealand, by 1.4 lengths.
10	**Dashing Mars** Inside draw and an October turf trial win help. Seventh in his subsequent dirt trial leaves him a deeper option. His Australian win came at 1,700m, 500m farther than this sprint.
11	**Gouken** Third in his latest 1,200m turf trial. Concedes experience and has to find his spot from 13. His 1,200m win came on a synthetic surface. He placed four times in six turf starts.
12	**It Is You** Made up ground to finish sixth on local debut at Happy Valley. Gate 5 gives him a chance to improve second time.
13	**Scorching Legend** Won a turf trial this month but has been away 203 days since his only local race. Gate 12 adds to the uncertainty.
14	**Come Fast Fay Fay** His prior win-win-second sequence is attractive. Last month's 1,400m defeat was nearly 20 lengths, so I need to see the rebound.

Official racecard and runners Full Form Line Report

Race 6 / 2000m turf

Class 3 / Sat 11:35 PM Pacific / 15:35 Hong Kong

BOC Credit Card Handicap

Mark's order 5 / 7 / 4 / 1

Pocketing, Big Return and Seraph Gabriel finished within a length of one another over this 2,000m on October 25. The rematch turns on weight and position. Liveandletlive can go forward from 5. Seraph Gabriel is well placed to follow from 3, with Pocketing and Big Return waiting to make their runs.

Mark's key stat #7 Big Return came home in 23.16 against #5 Pocketing's 23.21 in their October 25 race at 2000m. Big Return had twice lost momentum early.

Head-to-head form October 25, 2026 / Pocketing and Big Return carried 127 pounds apiece when Pocketing won by a neck. Big Return now carries four pounds less than Pocketing. Seraph Gabriel was only a length behind the winner and also gets a six-pound swing relative to him.

1	**Bravefield** Within a length in Class 2 at Happy Valley. Drops in class with Purton, but his recent local races were shorter.
2	**Kingsfield** Local debut came at 1,400m. Gate 12 and a jump to 2,000m leave a lot to ask on his second local outing.
3	**Liveandletlive** Could control the tempo and owns a second at this course and distance. Makes his first start in 137 days.
4	**Seraph Gabriel** Third, second and third in his last three. Beaten just a length in the common October race and draws 3.
5	**Pocketing** Beat Big Return by a neck over this trip. Gate 2 gives him another chance to save ground, though the runner-up gets weight.
6	**Enthusium** Second at this trip when last seen in June. Has the finish if fit, but comes off 154 days and draws 11.
7	**Big Return** Won over 1,800m, then missed by a neck at 2,000m. Get him into the race a touch sooner and he can turn the tables.
8	**Family Jewel** Won four starts back, but has not placed since. His latest run came just eight days ago.
9	**Mighty Strength** Ran eighth in the October rematch field, beaten only 3¼ lengths. Light weight helps, but several rivals finished better.
10	**The Auspicious** Ninth in the common course-and-distance race. His best recent placings are further back in the form.
11	**Fortune Boy** Receives weight but has finished seventh in his last two and was seventh in his last comparable 2,000m run.
12	**Super Goldendragon** Won twice before finishing sixth here in October. Gate 1 and 115 lb make him more interesting than that sixth suggests.

Race 7 / 1200m turf

Group Two / Sun 12:05 AM Pacific / 16:05 Hong Kong

The BOCHK Private Banking Jockey Club Sprint

Mark's order 1 / 2 / 5 / 4

Ka Ying Rising is the strongest win opinion on the card. The interesting decision is who follows him home. A head separated Raging Blizzard and Ka Ying Attack in the October Group 2. Ka Ying Attack can use gate 1. Ka Ying Rising has enough speed to sit outside him or take over, and Raging Blizzard can wait just behind that pair.

Mark's key stat #1 Ka Ying Rising has won 19 of 21 over the Sha Tin 1200m and finished second in the other two.

Head-to-head form October 25, 2026 / Raging Blizzard gave Ka Ying Attack 16 pounds and beat him by a head. They meet at level weights now. Ka Ying Attack draws the rail, but he has to reverse the finish without that weight advantage.

1	**Ka Ying Rising** Missed by a neck in a Randwick Group 1 after winning by 7¾ lengths over this course. Won a Sha Tin barrier trial on November 13. The one to beat.
2	**Raging Blizzard** Ran down Ka Ying Attack to win the October 25 Group 2 at this trip. Needs the leaders to give him something to chase again.
3	**Bottomuptogether** Won going 1,000m at Happy Valley last time. Faces much stronger over another 200m, and gate 6 puts him outside everyone.
4	**Crimson Flash** Beaten half a length in the same sprint as #2 and #5. His finishing run gives him a chance at the top three.
5	**Ka Ying Attack** Set the pace and missed by a head here last time. Also won from the back two runs ago, so Poon has options from gate 1.
6	**Sing Dragon** Beaten three lengths in the October Group 2. Will need his best turf sprint and a couple of the principals to underperform.

Official racecard and runners Full Form Line Report

Race 8 / 1600m turf

Group Two / Sun 12:40 AM Pacific / 16:40 Hong Kong

The BOCHK Private Wealth Jockey Club Mile

Mark's order 1 / 7 / 3 / 6

My Wish owns the Group 1 mile win. Light Years Charm beat him over this course last month and gets five pounds from him today. Patch Of Theta can go from 4, but Copartner Prance has shown mile speed and draws the rail. Light Years Charm can stalk them; My Wish and Galaxy Patch can finish from farther back.

Mark's key stat #1 My Wish closed in 22.72 to #7 Light Years Charm's 22.78 in their October 19 mile. My Wish came wide while the winner saved ground.

Head-to-head form October 19, 2026 / Light Years Charm beat My Wish by two lengths while receiving 16 pounds. He receives only five this time. My Wish has an 11-pound swing in his favor over the same mile.

1	**My Wish** Won an April Group 1 at this mile and finished third on his return in October. Won a subsequent trial. His late kick is the class test for #7.
2	**Helios Express** Triple seconds further back in his form, but only sixth in the October mile. His November trial second gives some hope of improvement.
3	**Galaxy Patch** Missed by a neck in each of his last two, both over 1,400m. Gate 3 helps him conserve ground; the extra 200m is the question.
4	**Copartner Prance** Ran third by a short head when leading over this mile in May. Gate 1 makes him a pace factor even after some shorter trips.
5	**Beauty Joy** Ten-year-old with two wins earlier in the sequence. Needs to bounce back from a distant 13th over 1,800m two weeks ago.
6	**Patch Of Theta** Made the pace when second to Light Years Charm here in October. Draws 4 and gets another chance to ration that speed.
7	**Light Years Charm** Beat Patch Of Theta by 1¾ lengths, with My Wish third, over this mile on October 19. Can take a handy spot from gate 6.
8	**Little Paradise** A 1,400m Group 3 winner in June and a recent trial winner. His last Group 1 mile was less convincing.
9	**Stormy Grove** Third in a 1,400m Group 3 in September, then ninth in the October mile. Must reverse a seven-length defeat against several of these.

Official racecard and runners Full Form Line Report

Race 9 / 2000m turf

Group Two / Sun 1:15 AM Pacific / 17:15 Hong Kong

The BOCHK Jockey Club Cup

Mark's order 9 / 8 / 2 / 1

Massive Sovereign gets 2,000m after a closing third at 1,800m. Gentlemen Legacy beat him that day. Numbers has the early position to make both work for it. Numbers can establish a rhythm after sitting second in the November prep. Voyage Bubble should get cover from the rail. Massive Sovereign needs a clear lane from gate 3.

Mark's key stat #9 Massive Sovereign had to wait until the 250m for room on November 8, yet his 22.74 was second fastest of 13. That came at 1800m.

Head-to-head form November 8, 2026 / Gentlemen Legacy finished second ahead of Massive Sovereign in third over 1,800m. He received eight pounds that day. They now carry equal weight, and Massive Sovereign gets another 200m to make his late run.

1	**Voyage Bubble** Top international rating in this field but beaten 13½ lengths in his comeback mile. Trial second since and gate 1 give him a route to a rebound.
2	**Numbers** Group 1 second at 2,400m in May. Raced prominently before fading at 1,800m on his return; the second start and added ground appeal.
3	**Docklands** Scratched. Docklands is outside both selection orders.
4	**Ensued** Group 1 second over this trip in March, then ninth in the recent 1,800m prep. Needs a major return to the older form.
5	**Romantic Thor** Finished 12th in the November prep after sitting midfield. His recent form leaves him with ground to make up.
6	**Winning Wing** Third over this course in a March Group 1. Latest mile was too short to settle the question; an underneath option on older staying form.
7	**Ka Ying Generation** Closed for fourth over today's trip last out, but that was Class 3. A trial win helps fitness more than it answers the class question.
8	**Gentlemen Legacy** Missed by a neck in the November 1,800m prep. Draws 2 and has won over this course and distance.
9	**Massive Sovereign** Came from 12th to third in the November prep after winning at Happy Valley. Purton gets gate 3 for the stretch to 2,000m.
10	**Silvery Breeze** Fourth in the same prep as #8 and #9. Can pick up tired horses late but still needs to reverse that result.

Scratch · #3 Docklands.

Race 10 / 1400m turf

Class 3 / Sun 1:50 AM Pacific / 17:50 Hong Kong

BOCHK BOC Pay+ Handicap

Mark's order 3 / 8 / 1 / 12

Nyx Gluck missed by a short head after winning twice. Silk Master can improve at 1,400m, and Negentropy is the local newcomer I want onside. Chill Buddy has the speed to cross from 14 but could pay for it. Silk Master can save ground on the rail; Nyx Gluck can settle and make one run.

Mark's key stat #8 Silk Master closed in 22.62, fastest of 12 at Sha Tin on October 11. He gets another 200m here to put that finish to use.

Head-to-head form October 19, 2026 / Nyx Gluck missed by a short head while Chill Buddy finished tenth, beaten four and three-quarter lengths. Chill Buddy gains two pounds relative to Nyx Gluck, but now starts from gate 14 while Nyx Gluck moves in to 7.

1 **Chill Buddy** Two close seconds and a win before fading to tenth here last time. Wide draw makes the first 300m critical.

2 **Inspired Legend** Carries 135 lb for his first local race. His last trial ended seventh of seven, so I prefer the newcomers with stronger local preparation. He placed third in the 2,400m Group 1 Queensland Derby. His two turf wins came at 1,500m and 1,600m.

3 **Nyx Gluck** Won here in September, then missed by a short head over the same trip. Purton stays and a November trial win adds to the case.

4 **Enterprise Triumph** Seventh on local debut over this course. Gate 2 should help him find a cheaper trip on the second attempt.

5 **Continent Express** Two double-digit finishes at this trip and 148 days away. The equipment change alone is too little to go on.

6 **Super Strong Kid** Made late ground in two 1,200m sprints. A chance underneath if the added 200m brings out more.

7 **Beauty Of Power** Two third-place turf trials before sixth on dirt. He has some local foundation but others have shown a sharper finish. Raced as Lyrical Song. Both British turf wins came at 1,487m, close to the 1,400m here.

8 **Silk Master** Came from 12th to fourth in his local debut sprint. Steps up 200m with Atzeni and draws 1; the risk is finding room late.

9 **Stay Cosmic** His local 1,400m sixth was better than the placing, but gate 12 could again leave him plenty to do.

10 **King Of The Sky** Passed horses late on his first local start at 1,000m. The 400m stretch-out makes his running position hard to predict.

11 **Leather Hero** Faded to 13th over this trip on debut. Sixth of seven in his latest trial gives little reason to move him up.

12 **Negentropy** Two turf trial wins at 1,200m, including his latest on November 6. Preferred newcomer for a share at a price. His best result from three Australian turf runs was a third at 1,600m.

13 **Great Legend** Both local starts ended 13th. Gate 13 makes the first try at this trip harder.

14 **Zhuang Yuan Glory** Drops weight and draws 3 but was more than nine lengths away at this trip last time. Needs a different finish.

Standby only S1 Triple Fortune · S2 The Red Hare

Race 11 / 1400m turf

Class 3 / Sun 2:25 AM Pacific / 18:25 Hong Kong

BOCHK FamilyMAX Handicap

Mark's order 7 / 9 / 1 / 8

Aerovolanic missed by a neck to Packing Glory here and draws 2 for the rematch. Salon S drops from Class 2 and has enough speed to change the race. Packing Glory went forward to win their last meeting. Salon S and Aerovolanic have both raced close up and draw inside him. Circuit Champion needs a spot from 13.

Mark's key stat In the October 25 rematch line, #8 Circuit Champion closed in 22.57 and #7 Aerovolanic in 22.58. Both came home faster than winner #9 Packing Glory (22.81).

Head-to-head form October 25, 2026 / Packing Glory beat Aerovolanic by a neck. Aerovolanic now gets a four-pound swing in his favor and starts from gate 2. Circuit Champion, third that day, also gains six pounds on the winner but still has gate 13.

1	**Salon S** Third in a Class 2 sprint and fourth in a Class 2 over today's trip before that. Won his November 10 trial; gate 3 puts him right in the race.
2	**Top Dragon** Just half a length away on dirt at 1,650m last time. Gate 14 leaves him needing a good deal to go right back on turf.
3	**Providence** McDonald rides this local newcomer. Two trial thirds show preparation, though he starts near the top of the weights. He placed second in the Group 3 Frank Packer Plate at 2,000m in Australia.
4	**Endued** Drops after a Class 2 fifth at this distance. Wide draw makes him more interesting for a minor placing than for the win.
5	**Emblazon** Beaten 25¼ lengths in his last start over this trip. A trial second is encouraging but hard to lean on against this field.
6	**Target Audience** Won at Happy Valley after two straight seconds. Gate 1 helps the switch from sprinting to 1,400m.
7	**Aerovolanic** Course-and-distance win followed by a neck second to Packing Glory. Gate 2 lets Leung sit behind the pace again.
8	**Circuit Champion** Third in that October race after a short-head second here. Purton stays, but gate 13 makes him work harder for position.
9	**Packing Glory** Beat Aerovolanic by a neck after taking over early. A 7 lb allowance helps his case for repeating from gate 7.
10	**Kempes** Two straight sprint wins, one turf and one all-weather. Needs to carry that finish over another 200m.
11	**Almighty Lightning** Three lengths behind Packing Glory in their October meeting. Light weight helps but several of those rivals are back.
12	**Fire Dragon** First local start after finishing fifth in a 1,200m turf trial. Others bring stronger form at this trip.
13	**Nocturne** Two useful placings in Conghua turf trials. Gate 12 complicates the trip on his local debut. His best result from four New Zealand turf starts was a third at 1,200m.
14	**Duke Atreides** Two unplaced Happy Valley sprints leave a lot to prove on the move to 1,400m. The light weight is only a starting point.
